Indexation and Valuation Methodology

As of the date of this Investor Report, the Guarantor uses the methodology described below (which methodology is, as of the date hereof, the "Indexation Methodology"), to establish the market value of residential properties securing loans included in the Covered Bond Portfolio on a quarterly basis for purposes of the Asset Coverage Test, the Amortization Test, the Valuation Calculation and for other purposes as may be required by the CMHC Guide from time to time. Changes to the Indexation Methodology may only be made (i) upon notice to CMHC and satisfaction of any other conditions specified by CMHC in relation thereto, (ii) if such change constitutes a material change, subject to satisfaction of the Rating Agency Condition, and (iii) if such change is materially prejudicial to the Covered Bondholders, subject to the consent of the Bond Trustee. The Indexation Methodology must at all times comply with the requirements of the CMHC Guide.

The primary index used by the Guarantor to determine the market value of a Property is the Teranet-National Bank Regional and Property Type Sub-Indices™ (the "RPT Sub-Indices"). The RPT Sub-Indices are estimated by tracking the observed or registered home prices over time based on property records of public land registries and grouped based on the first three digits of the Property's postal code. A Property must have been sold at least twice in order to be included in the calculation of the RPT Sub-Indices. In areas where sufficient data is available, the RPT Sub-Indices may be further subdivided by property type (all types, single-family homes and condominiums), which offers another layer of valuation granularity without compromising the statistical estimation error terms. To the extent necessary, the Teranet-National Bank House Price Index™ – Composite 11 Index (the "HPI – Composite 11") will be used for indexation purposes where the RPT Sub-Indices are not available. The HPI – Composite 11 combines the metropolitan areas of Victoria, Vancouver, Calgary, Edmonton, Winnipeg, Hamilton, Toronto, Ottawa, Montréal, Québec and Halifax to form a national composite index. At this time, New Brunswick and Saskatchewan are the only areas relevant to the Covered Bond Portfolio for which the RPT Sub-Indices are not available. For regions where the RPT Sub-Indices are not subdivided by property type, the Guarantor will use the all types sub-index. The RPT Sub-Indices and the HPI – Composite 11 are available by subscription at www.housepriceindex.ca. This website and its contents do not form part of this Investor Report.

For each Property in the Covered Bond Portfolio, the indexed valuation for a quarter will be determined by multiplying the Original Market Value (as defined in the CMHC Guide) for such Property by the percentage change since the valuation date in the price level for the sub-index in which such Property is located and, if available, also based on the property type.

Material risks associated with using the Indexation Methodology include, but are not limited to, the following: the accuracy, adequacy, timeliness and completeness of the indices being relied upon; the consistency in underlying methodology of such indices; the continued availability of the home sale price data provided to Teranet; in the case of Properties outside of the regions covered by the RPT Sub-Indices, the risk that the HPI – Composite 11 may not accurately capture unique factors affecting local housing markets; and in the case of Properties located within the regions where the RPT Sub-Indices are not subdivided by property type, the risk that the all-types sub-index may not account for differences in property value changes based on property type.

National Bank of Canada (in its capacity as a licensor of the Index (as defined below), the "NBC Licensor") has, jointly with Teranet Inc. ("Teranet" and collectively with the NBC Licensor and their third party licensors the "Licensors"), developed a methodology and algorithm to create a residential house price index. The National Bank of Canada Legislative Covered Bond Programme (the "Programme") is not endorsed, sold or promoted by the Licensors. None of the Licensors make any representation or warranty, express or implied, to the parties to the Programme or any member of the public regarding the advisability or recommendation of investing in the Programme particularly or concerning the results to be obtained from the Teranet-National Bank House Price Index™ and the Teranet-National Bank Regional and Property Type Sub-Indices™ (the "Index") and its ability to track the performance of the residential real estate and housing markets or concerning the extent to which the capital value or income return of the Programme matches or will match the performance of the Index or the levels at which Index may stand at a particular date. The Licensors' only relationship to National Bank of Canada as licensee (in such capacity, "NBC") is the licensing of certain trademarks and trade names of the Licensors without regards to NBC or the Programme. The Licensors have no obligation to take the needs of NBC or the parties to the Programme into consideration in determining, composing or calculating the Index. None of the Licensors is responsible for and none has participated in determining the pricing, quantities or timing of the execution of the Programme by the parties thereto or the assessment or method of settlement calculation therefor. The Licensors have no obligation or liability in connection with the administration, marketing or trading of the Programme.

None of the Licensors or any of their affiliates guarantees the adequacy, accuracy, timeliness or completeness of the Index or any data included therein, or any communications related thereto. None of the Licensors or any of their affiliates shall be subject to any damages or liabilities for any errors, omissions or delays of the dissemination of the Index. None of the Licensors or any of their affiliates makes express or implied warranties, and each of them expressly disclaims all warranties or merchantability or fitness for a particular purpose or use with respect to the Index or any data included therein. Without limiting any of the foregoing, in no event whatsoever shall the Licensors or any of their affiliates be liable for any direct, special, incidental, punitive or consequential damages, including but not limited to loss of profits, trading losses, lost time or goodwill, even if they have been advised of the possibility of such damages, whether in contract, tort, strict liability or otherwise. Market Risk

Covered Bonds may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid and may be sensitive to changes in financial markets. Therefore, investors may not be able to sell their Covered Bonds easily or at prices that will provide them with a yield comparable to similar investments that have a developed liquid secondary market. This is particularly the case for Covered Bonds that are especially sensitive to interest rate, credit, currency or market risks or are not admitted for trading on the Main Market or another established securities exchange. See also the risk factors under sub-category "Factors which are material for the purpose of assessing risks related to a particular issue of covered bonds" in the Base Prospectus. These types of Covered Bonds generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Covered Bonds. Please also refer to the following sections in the Base Prospectus

Risk Factors

1. Risks related to Fixed Rate Covered Bonds
2. Covered Bond issued at a substantial discount or premium

Interest Rate Risk

The Interest Rate Swap Agreement provides a hedge against possible variances in the rates of interest payable to the Guarantor on the Portfolio Assets (which may, for instance, include variable rates of interest or fixed rates of interest) following the Interest Rate Swap Effective Date, and the amount (if any) payable in respect of its obligations under the Intercompany Loan and, following the Covered Bond Swap Effective Date, the Covered Bond Swap Agreement. Further details can be found in the Base Prospectus **in the section entitled "Summary of the Principal Documents – Interest Rate Swap Agreement"**.

The Covered Bond Swap Agreement provides a hedge against currency and/or other risks arising, following the occurrence of the Covered Bond Swap Effective Date, in respect of amounts received by the Guarantor under the Interest Rate Swap Agreement and amounts payable in respect of its obligations under the Covered Bond Guarantee.

The Issuer, in its capacity as Interest Rate Swap Provider, and the Guarantor have entered into an Interest Rate Swap Agreement that provides the Guarantor with a hedge against possible variances in the rates of interest payable to the Guarantor on the Portfolio Assets (which may, for instance, include variable rates of interest or fixed rates of interest) following the Interest Rate Swap Effective Date, and the amount (if any) payable in respect of its obligations under the Intercompany Loan and, following the Covered Bond Swap Effective Date, the Covered Bond Swap Agreement. The interest rate swap confirmation is not yet effective and cashflows are not being exchanged pursuant thereto. The obligations under the interest rate swap confirmation are contingent and will only become effective on the Interest Rate Swap Effective Date. Further details can be found in the interest rate swap confirmation <https://www.nbc.ca/content/dam/bnc/a-propos-de-nous/relations-investisseurs/fonds-propres-et-dette/irsc.pdf>. The Issuer may be required to post collateral to secure its obligations under the Interest Rate Swap Agreement upon the activation of rating triggers. These rating triggers have not been activated and no collateral has been posted yet. Further details can be found in the Base Prospectus <https://www.nbc.ca/content/dam/bnc/a-propos-de-nous/relations-investisseurs/fonds-propres-et-dette/2025/lcb-first-supplementary-prospectus-4-september-2025.pdf> in the section entitled "Summary of the Principal Documents – Interest Rate Swap Agreement" with the downgrade rating triggers described within that section under "Interest Rate Swap Early Termination Events".

The Issuer, in its capacity as Covered Bond Swap Provider, and the Guarantor have entered into Covered Bond Swap Agreements that provide the Guarantor with a hedge against currency and/or other risks arising, following the occurrence of the Covered Bond Swap Effective Date, in respect of amounts received by the Guarantor under the Interest Rate Swap Agreement and amounts payable in respect of its obligations under the Covered Bond Guarantee. The parties have entered into a separate swap confirmation for each outstanding Series of Covered Bonds. The obligations under the covered bond swap confirmations are contingent and will only become effective on the Covered Bond Swap Effective Date. Further details can be found in the covered bond swap confirmation in respect of a trade, which will be available once posted on the Issuer's covered bond website following completion of the trade <https://www.nbc.ca/about-us/investors/capital-debt/legislative-covered-bonds.html#accordion-8e5e1c6f8a-item-e5ba97020b>. None of these confirmations is effective and cashflows are not being exchanged pursuant thereto. The issuer may be required to post collateral to secure its obligations under the Covered Bond Swap Agreements upon activation of rating triggers. These ratings triggers have not been activated and no collateral has been posted yet. 6. Risks resulting from a lack of notice and registration of the sale, transfer and assignment of the Loans and their Related Security in the Covered Bond Portfolio on the relevant Transfer Dates
7. Extendable obligations under the Covered Bond Guarantee

Maturity Structure

Covered bonds can be issued on any term with soft bullet maturities (extendable for an additional year from contractual maturity date). Issuers must prescribe ratings triggers for (a) establishment of a cash reserve fund sufficient to satisfy interest and Guarantor's senior payment obligations for a period prescribed by the issuer and (b) pre-maturity tests designed to ensure covered bond collateral includes cash to satisfy all principal payments under hard bullet bonds maturing during a prescribed period and all senior payment obligations during that prescribed period. Following an issuer event of default, the Guarantor will be required to perform a monthly amortization test to confirm that value of covered bond collateral is at least equal to the outstanding principal amount of covered bonds.

Please refer to the following sections in the Base Prospectus :

Terms and Conditions of the Covered Bonds – Condition 6.01 – Redemption and Purchase

Extension Triggers and Extended Due Dates

All outstanding Series are soft bullets. An Extended Due for Payment Date twelve months after the Final Maturity Date has been specified in the Final Terms of each such Series. The Coupon Rate specified in this report in respect of each Series applies until the Final Maturity Date of that Series following which the floating rate of interest specified in the Final Terms of each Series is payable monthly in arrears for the interest period from and including the Final Maturity Date to but excluding the Extended Due for Payment Date. This means that, if the Issuer fails to pay the Final Redemption Amount of a series of Covered Bonds on the Final Maturity Date (subject to applicable grace periods) and the Guarantor has insufficient moneys available in accordance with the Priorities of Payments to pay in full the Guaranteed Amounts corresponding to the Final Redemption Amount, then payment of the unpaid amount pursuant to the Covered Bond Guarantee will be automatically deferred and will be due and payable on the Extended Due for Payment Date specified in the applicable Final Terms. To the extent it has available funds, the Guarantor will be required to make partial payments of amounts remaining unpaid on each Interest Payment Date up to and including the Extended Due for Payment Date.
